Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 12 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Largely dry and settled over the next few days.

Today:
Any fog patches clearing, then most areas having another dry day. Skies will be cloudier than yesterday and a few spots of rain are possible during the afternoon, especially in north Wales. Some bright spells are likely further south. Maximum temperature 17 deg C (63 deg F).

Tonight:
It will be a dry night with clear periods and mist and fog patches forming in places. Turning quite chilly in places. Minimum temperature 5 deg C (41 deg F).

Wednesday:
Mist and fog patches slowly lifting to give some sunny spells. With light winds it will feel warm in the afternoon sunshine. Maximum temperature 16 deg C (61 deg F).

Outlook for Thursday to Saturday:
Once overnight mist and fog has cleared, Thursday will be dry with warm sunny spells. Cloudier on Friday and Saturday with a chance of patchy light rain.
